

Hardware MediaBridge

Configuration

- 1.** Plug Crossover/Ethernet cable into Port #1 of MediaBridge and then plug the other end into your PC/Mac.
- 2.** Plug power cord into the MediaBridge, and then plug the other end into wall outlet.
- 3.** In your network configuration tab, manually assign your IP Address to 192.168.0.101. *(You have the option to choose any # between 2 and 254, but never 1, 100 or 255.)*

4. See Figure 2.1.

- 5.** Select Apply/OK to activate settings to establish the connection between your MediaBridge and PC/Mac.
- 6.** Login to MediaBridge IP Address <http://192.168.0.100>. (Username = admin, Password = default.)

[EDIT IP CONFIGURATION](#)

IP Address:	10.1.10.56
Subnet Mask:	255.255.255.0
Gateway:	10.1.10.1
DNS1:	8.8.8.8
DNS2:	4.2.2.1
Proxy:	OFF ▾
Save IP Configuration	

- 8.** Choose “Save,” and then reboot the machine.
- 9.** Disconnect the MediaBridge from laptop & connect to your network.
- 10.** When device is powered on again, access web interface at applied IP Address. (Username = admin, Password = default.)
- 11.** Click “Edit Account Information.”
- 12.** Update the following:
 - Account ID (*Your account ID is the text that appears between http:// and .channelshd.com in your account’s URL. For example, http://industryweapon.channelshd.com. Industry Weapon would be the account ID.*)
 - Account PIN (from the Configuration page of CCHD)
 - Zone ID (from the Configuration page of CCHD)
 - Timezone

The screenshot shows the 'Account Configuration' page of the CommandCenterHD web interface. The page has a header with tabs: Dashboard, IP Config, Account (which is selected), Restart, Shut Down, Reset Password, Logs, and Remote Mgmt. Below the header, there's a title 'Account Configuration' and a sub-section 'EDIT ACCOUNT CONFIGURATION'. The form contains the following fields:

- Account ID: IndustryWeapon
- Account PIN: a23Gaxzb9g
- Zone ID: IVTesting
- Zone ID 2: (empty)
- Zone ID 3: (empty)
- Zone ID 4: (empty)
- Use MediaBridge Chaining:
- Enable smartMediaBridge:
- Timezone: US, Eastern
- Use Advanced Tuning Parameters:
- Save Account Configuration button

- 13.** Reboot again. Your MediaBridge should now be configured to communicate with CCHD.
